

## Global Action Team District Operating Budget

### What is the District Operating Budget?

An operating budget of **US\$250** is available to each Global Action Team district coordinator (1 for leadership, 1 for membership 1 for service) on record with LCI. The operating budget is used to cover expenses incurred by the Global Action Team district coordinator while fulfilling his/her responsibilities. Examples of typical expenses include webinar services, training costs, and travel for leadership/membership/service related activities or attendance at district related meetings.

### The following must be completed by district coordinators in order to receive Operating Budgets.

1. Submit a District Development Plan to LCI. Each Global Action Team district coordinator will need to complete a Global Action Team Development Plan via the [Global Action Team Development Plans and Progress Reports](#) webpage located on the LCI website on the [Global Action Team](#) webpage.
2. Complete two (2) of the required [Lions Learning Center \(LLC\)](#) online training courses listed below based on your specific Global Action Team focus.
3. Once the District Development Plan has been submitted, the [District Operating Budget Disbursement](#) information provided and LCI has verified that two (2) courses have been completed by the district coordinator, the operating budget disbursement will be sent within 4-6 weeks.

Each Global Action Team district coordinator may take any of the 10 courses listed under their team, but the first two (2) courses, marked with an asterisk, are the LCI recommended courses.
