

Global Action Team Focus Areas

District Goals

The Global Action Team (GAT) helps districts achieve their goals by creating a unified approach to action in Leadership, Membership and Service, as well as the Foundation (LCIF). Members of the GAT are responsible for supporting the goal setting, planning and implementation processes. District goals should be reviewed on a quarterly basis to ensure districts are on track to success.

Zone Chairpersons

As a member of the GAT, one of the zone chairperson's top priorities is to reinforce club-level communications in order to support initiatives and provide resources to clubs. Zone chairpersons serve as a critical part of the feedback loop between clubs, districts and Lions International headquarters. Districts should hold zone chairperson training early in the fiscal year to better utilize this valuable member of the GAT.

Feedback Loop

Feedback is essential to success in the work of Lions and members of the GAT. Specialists from Lions Clubs International rely on all levels of the GAT to collect and provide feedback on new initiatives, challenges and successes. Being an active part of this feedback loop is a crucial role of members of the GAT.

Success Stories

The GAT message is best shared through storytelling: Stories that focus on a one-team approach, highlight how each pillar of the team contributes to the others, and show the impact that the GAT can make. Districts are eligible to receive US\$500 to support district GAT activities by submitting a success story for the GAT District Funding program.
